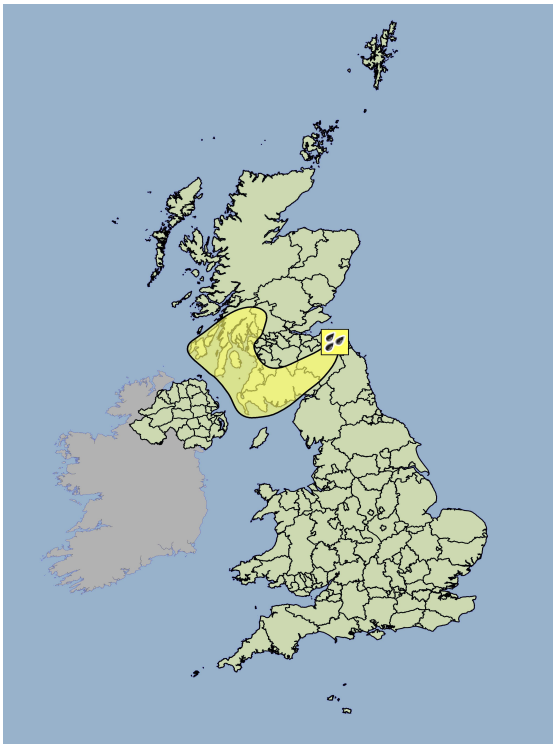
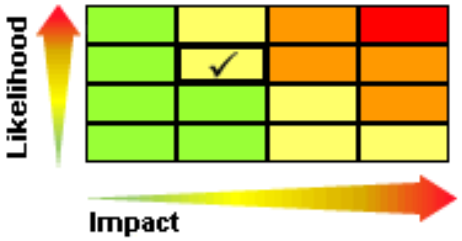
National Severe Weather Warning Service





Chief Forecasters Assessment
A frontal system will affect much of Scotland on Friday before moving away into the North Sea by the end of the day. A band of heavy rain is expected to bring around 15-20 mm within a 6 to 9 hour period accompanied by strong to gale force southeasterly winds.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **06:00 on Fri, 14th Nov 2014** until **15:00 on Fri, 14th Nov 2014**

A band of persistent and heavy rain will move northeast across Dumfries and Galloway, Argyll and the Borders on Friday. The rain will be accompanied by strong southeasterly winds bringing difficult driving conditions with surface water and spray on the roads. Isolated flooding from small watercourses is also possible. The strongest winds will be along the coasts with gusts of 60-65 mph in places with disruption to transport, including ferry services, likely.
